

Stall in parliament raises awareness of fuel poverty concerns and solutions

38 MSPs from across the political spectrum pledged their support for a Scotland with warm homes for everyone at the Existing Homes Alliance stall in the Scottish Parliament. The stall was hosted by Graham Simpson MSP on 22-24 January 2019 and focused on fuel poverty - concerns and solutions.

This shows the breadth of cross-party support to tackle fuel poverty and work together to find the best solutions so we can have affordable to heat, low carbon homes for all.

If you would like to support the pledge, and for further information, including briefings on the Fuel Poverty Bill, please visit our [website](#).
